    <h2>History: </h2>
    <br>
    <h3> Ancient Roots</h3>
    <p>
        Inhabited since 9000 BC, Corsica has a rich prehistoric legacy with
        stone structures and archaeological sites.<br>
        It was settled by Greeks, then ruled by Carthaginians and later the
        Romans (from 240 BC), who developed roads and cities.
    </p>
</section>

```

</p>

<h3>Medieval Era</h3>

<p>

After the fall of the Roman Empire, Corsica faced invasions from Vandals, Moors, and Byzantines.

Eventually, control passed to the Republic of Pisa and then the Genoese in the 13th century.

<h3>Genoese Rule (1284–1769)</h3>

<p>

Genoa controlled Corsica for nearly 500 years.They built citadels, churches, and watchtowers, many of which still
stand today.Corsicans often revolted, seeking autonomy.

</p>

<h3>Short-Lived Independence</h3>

<p>

In 1755, Pasquale Paoli, a Corsican patriot, declared the island a republic, writing a democratic constitution.

This early democracy influenced even the U.S. Constitution.

  <h2>History</h2>
  <h3>Foundation and Planning</h3>
  <p>
    Founded in 1727 by Maharaja Sawai Jai Singh II, the ruler of the
    Kachhwaha Rajput dynasty.<br>
    Jaipur was built as a new capital when Amber (the earlier capital)
    faced water shortages and growing population issues.<br>
    Jai Singh II was a mathematician and astronomer, which influenced
    his desire for a well-planned and scientific city layout.<br>
    <br>
  </p>
  <h3>Urban Design & Architecture</h3>
  <p>
    Jaipur is one of India's first planned cities, built using grid
    patterns based on Vastu Shastra. (ancient Hindu architectural
    science)Designed by Vidyadhar Bhattacharya, a Bengali architect and
    scholar of architecture, astronomy and vastu.<br>
    Divided into nine blocks (Chowkris) – two reserved for the royal
    palace and seven for public and commercial use.<br>
  </p>
  <h3>The Pink City Legacy</h3>
  <p>
    In 1876, the city was painted terracotta pink (a symbol of
    hospitality) to welcome the Prince of Wales (later King Edward VII).<br>
    The tradition of maintaining the pink color continues, earning Jaipur
    the nickname "The Pink City".<br>
    The color is now mandated by law in parts of the old city.<br>
  </p>
  <h3>Modern Significance</h3>
  <p>
    Jaipur is now a UNESCO World Heritage City (declared in 2019).<br>
    Part of the famous Golden Triangle (Delhi, Agra, Jaipur) – a must-
    visit for Indian and international tourists.<br>

```

Famous for royal heritage, handicrafts, forts, palaces, and festivals like Jaipur Literature Festival.

  <h2>History</h2>
  <h3>Foundation and Planning</h3>
  <p>

```

Founded in 1727 by Maharaja Sawai Jai Singh II, the ruler of the Kachhwaha Rajput dynasty.

Jaipur was built as a new capital when Amber (the earlier capital) faced water shortages and growing population issues.

Jai Singh II was a mathematician and astronomer, which influenced his desire for a well-planned and scientific city layout.

</p>

<h3>Urban Design & Architecture</h3>

<p>

Jaipur is one of India's first planned cities, built using grid patterns based on Vastu Shastra. (ancient Hindu architectural

science)Designed by Vidyadhar Bhattacharya, a Bengali architect and scholar of architecture, astronomy and vastu.

Divided into nine blocks (Chowkris) – two reserved for the royal palace and seven for public and commercial use.

</p>

<h3>The Pink City Legacy</h3>

<p>

In 1876, the city was painted terracotta pink (a symbol of hospitality) to welcome the Prince of Wales (later King Edward VII).

The tradition of maintaining the pink color continues, earning Jaipur the nickname "The Pink City".

The color is now mandated by law in parts of the old city.

</p>

<h3>Modern Significance</h3>

<p>

Jaipur is now a UNESCO World Heritage City (declared in 2019).

Part of the famous Golden Triangle (Delhi, Agra, Jaipur) – a must-visit for Indian and international tourists.

Famous for royal heritage, handicrafts, forts, palaces, and festivals like Jaipur Literature Festival.

    <h2>History</h2>
    <h3>Ancient Origins</h3>
    <p>
        3rd century BCE: Paris was originally a settlement of a Celtic
        tribe called the Parisii, located on the Île de
        <br>la Cité (now part of central Paris).52 BCE: Conquered by the
        Romans and renamed Lutetia (Lutetia Parisiorum).
    </p>

```

Medieval Paris

Became an important religious and commercial center in the Middle Ages. Construction of iconic landmarks like Notre-Dame

Cathedral began in the 12th century around the Seine River, with a bustling university district known as the Latin Quarter.

The French Revolution (1789)

Paris was the epicenter of revolutionary activity that overthrew the monarchy. Events like the storming of the Bastille

and the Reign of Terror happened here.

20th Century - From War to World Stage

Under Emperor Napoleon III, Baron Haussmann redesigned Paris with wide boulevards, parks, and modern sewer systems.

Occupied during World War II by Nazi Germany; liberated in 1944. Post-war, Paris grew as a center for diplomacy,

culture, and tourism. Key global events and movements including the Paris Peace Accords and May 1968 student protests.

Edo was renamed Tokyo, meaning "Eastern Capital", as the Emperor moved from Kyoto to Tokyo.

Modern Development

After being devastated by the Great Kanto Earthquake (1923) and World War II bombings, Tokyo rebuilt itself into one of the most advanced cities in the world.
